About The Salt Lake City Public Art Program Pre-Qualified Artist Pool

The 2023-2025 Salt Lake City Public Art Pre-Qualified Artist Pool is a juried list of 48 professional artists and artist-led teams based in Utah.

The purpose of the Pool is to support Utah-based artists by integrating more artwork and artistic elements into the urban landscape and help facilitate the selection of artists for public art and other special commission opportunities from the Salt Lake City Arts

Council's Public Art Program. The Pool is also a community resource available to private developers, local businesses, curators, other Salt Lake City divisions and departments, cultural workers, and community members wanting to connect with local artists and commission art.

The artists on the following pages work in an array of mediums and creative processes, including: architecture, ceramic, design, digital media, fiber art, glass, graphic art, installation, light, mixed media, mosaic, mural, painting, performance, photography, printmaking, sculpture, immersive experiences, video and others.

Artists on the 2023-2025 Salt Lake City Public Art Pre-Qualified Artist Pool were selected by members of the Salt Lake Art Design Board, a seven-member citizen advisory group appointed by the Mayor and confirmed by the City Council to oversee the Salt Lake City Public Art Program. Applicants were reviewed on their originality, skill, diversity, and professional history. The Pool is refreshed every three years.

BIO

I am an up-and-coming artist originally from Guam who has spent many years traveling through Asia. This experience has helped me cultivate a truly unique style of artwork that incorporates bold lines and vibrant colors to create stunning graphic imagery. I am also one of the first artists in the state to create an interactive mural where an element of the image comes out of the wall, allowing the public to interact with the mural in ways not normally possible. My art is truly compelling to people of all demographics, and I am excited to continue to share it with the world.

Liberty Blake

BIO

I am best known for my colorful, pop art paintings, public art and textiles, all of which mix graffiti-style lettering, doodles and collage with graphic screen-printed imagery. My pieces have been described as 'active message paintings with subliminal messages of hope for future generations'. They comment on dogmas and widely held beliefs in popular culture and pay homage to times of revolution and upheaval that move the needle of society's moral compass. My work is fun and whimsical and sometimes subversive, and is informed by my lifelong love of travel, music, the outdoors and action sports.

BIO

So much of what we find in the "Art World" is overly priced, overly serious, political, hard to understand, or just plain meaningless. By taking objects that were once used in industry and war and transforming them into something fun, we are able to better understand the true meaning of Art. Art can make us smile. Art can make us laugh. Art can be affordable. I have worked full-time for the past 20 years making whimsical garden art that doesn't suck!

✉ emily.nicolosi@gmail.com

📷 [@in_theory_art_collective](https://www.instagram.com/in_theory_art_collective)

BIO

The In Theory Art Collective brings together artists, engineers, and builders to co-create astonishing and immersive sculptures and installations. Their flagship sculptures deploy steel structures to compose recognizable symbols (e.g. star, heart, tear drop). These symbols are blanketed in geometric forms, often in dichroic materials that deliver shifting iridescence, and a sense of awe and wonder. Their installations build on this approach to draw the audience into immersive narratives by blending in found objects, written narrative, and LED art. Thematically, their work draws attention to our humanity and the potential thereof, both in terms of the social and the environmental: our relationships to ourselves, to each other, and to the planet.

Valerie Jar

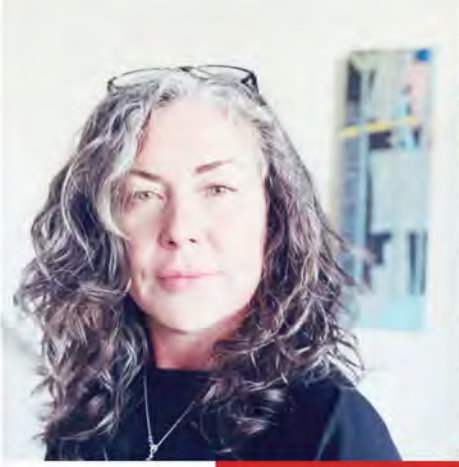

ILLUSTRATION

BIO

Hi! I'm Val—an independent designer/illustrator located in Salt Lake City. My work is inspired by the wild joy of being in the outdoor world. The simplicity and happiness felt while in a natural space is what I want to share, through design and illustration. I love the hidden symbolism and meanings behind common objects and everyday things, and oftentimes, that fascination will play a role in my work. When I'm not designing, I enjoy trail running, books, the outdoors and traveling.

Sarinda Jones

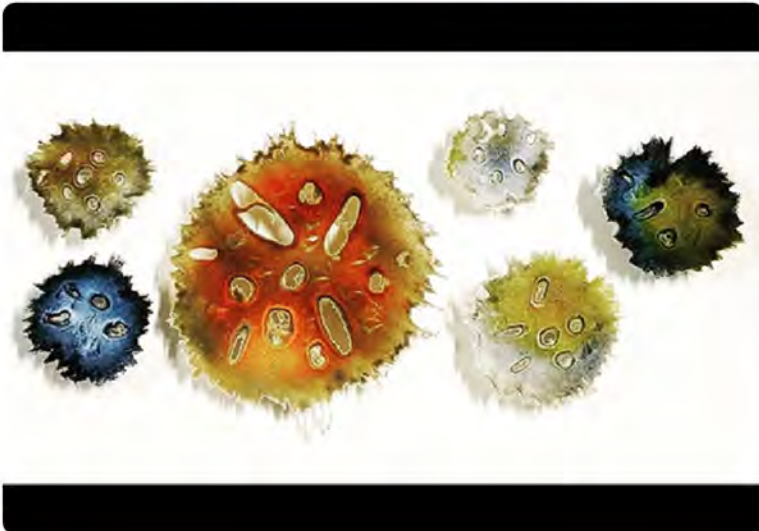

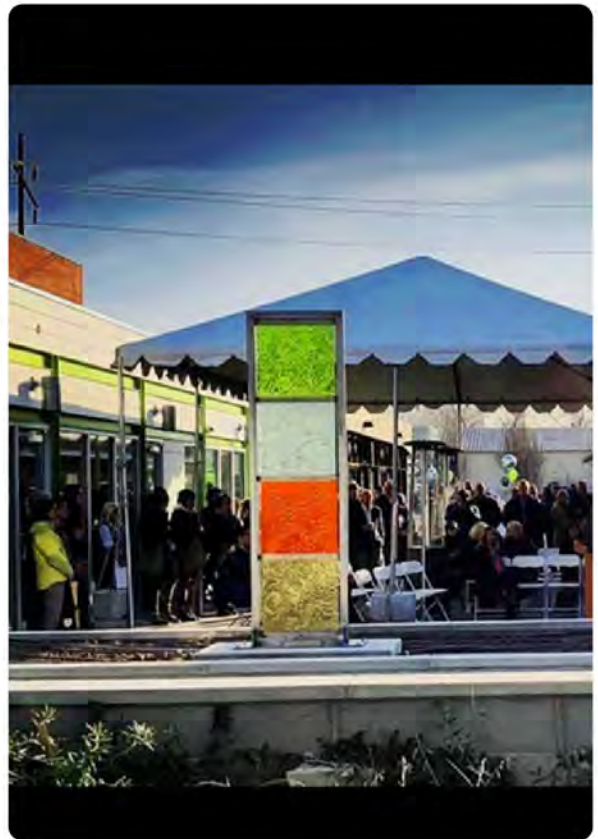

GLASS, PUBLIC ART, MIXED MEDIA, LARGE SCALE DESIGN

✉ SarindaJones@icloud.com

🌐 www.sarindajones.com

BIO

As a glass artist who works with a medium that has a strong background in science and extermination, I enjoy merging the artistic voice with the knowledge of science and biology. A common thread in my motivation as an artist. Creativity is an anchor to the scientific community, and science is a fundamental part of my artistic process. Public art succeeds when it draws people in, causing them to feel more connected to their surroundings. Giving back to the community is an integral part of my creative process. Bringing art into a building speaks volumes in the ability to create a harmonizing space, including a public art commission providing a motivational environment that supports members of the community.

BIO

My body of work over the last 30 years has centered around public sculptures that reinterpret the natural world, either by relating to and reinterpreting natural forms or reorganizing the immediate world around them through various forms of reflections. Most recently I have been particularly interested in creating an opportunity to heighten the viewer's awareness of the world around them, tuning people back in to beauty they may have tuned out. I'm keenly in touch with craftsmanship, the importance of the quality of the object outside of any narrative, and the impact a strong visual statement can have.

Salt Lake City Public Art Program

A Division of the Salt Lake City Arts Council

Recognizing the social and economic benefits realized through an aesthetic experience in public spaces, the Salt Lake City Public Art Program’s purpose is to add high quality, site-specific artists’ work to the natural and built environments. In 1984, Salt Lake City established the Percent-for-Art ordinance, allocating a percentage of eligible City project funds for commissioning artists for services and site-specific artwork to be integrated into new construction projects. **As of 2023, that percentage is 1.5%.**

Salt Lake City’s growing public art collection includes nearly 150 permanent artworks, in various mediums, in parks and City buildings, skate parks, recreation centers, sidewalks, city streets and plazas in all seven City Council Districts that make up the city. The City & County Building houses approximately 120 paintings, photographs, etchings, prints, and sculptures.

In addition to funding through the Percent-for-Art ordinance, the Public Art Program partners with the Redevelopment Agency of Salt Lake City to integrate public art in their city-wide project areas. Since 1998, the Public Art Program has partnered with Utah Transit Authority on Art-in-Transit, managing the public art projects on nearly two dozen TRAX stations on the light rail system in Salt Lake City. Funding is also available through Community Development Block Grants (CDBG) and through general bond funds for specific projects.
